OneHealthPort Introduction

Washington State's Health Information Exchange (HIE) provides healthcare organizations a secure, low-cost means to share standardized messages with trading partners on a system-to-system basis.

By the Numbers

2002

year we were founded

75,000

number of healthcare organizations we touch

50 million

number of transactions exchanged each year

100,000

number of Subscribers to our Single Sign-On service

Created by and for the local healthcare community, OneHealthPort solves information exchange and workflow problems shared across healthcare organizations.

Axway and OneHealthPort
