Successful Digital Workplace Transformation

How Syncplicity helps one of the world's leading energy, healthcare and infrastructure companies power the digital workplace and **achieve its SmartStorage initiative.**

The Goals

1 Ensure secure universal access and content collaboration

2 Save through extreme scale storage consolidation with EMC Elastic Cloud Storage (ECS)

3 Centralize cloud-based management and controls

The Results

1 Accommodate an expanding population of collaborators: **330K users**

2 Expand geographic coverage around the globe: **150 countries**

3 Manage extremely high data volumes: **3 petabytes**

4 Go from office-network-only access to share-from-anywhere collaboration

5 Meet data sovereignty, corporate compliance and intellectual property requirements with group-based, policy-driven storage

6 Reduce costs from **90¢ per GB to 7¢ per GB**

"User experience, security, storage choice flexibility and large scale deployment were critical requirements for this project. Syncplicity by Axway was the company that best fulfilled these requirements. We are able to give our employees the EFSS solution they need while at the same time realizing significant cost savings by modernizing the underlying IT infrastructure."

"SmartStorage is one of our largest digitalization initiatives within Siemens, delivering critical capabilities to our employees and enabling us to work toward broader company goals." — Georg Pilartz, Head of IT Infrastructure, Siemens

The Challenges

1 Overcome content access restricted to corporate-connected desktops

2 Factor in expensive legacy NAS storage infrastructure

3 Manage repositories across **200+ data centers**

What Syncplicity **can do** for **you**

Power your digital workplace

We'll help you empower and mobilize workers to collaborate in real time with seamless access to content anywhere, anytime on any device.

Modernize your IT infrastructure

We'll help you unlock the power of the cloud by consolidating your legacy content repositories at significantly lower cost

Govern your data

We'll help you ensure protection and compliance of your content through granular data residency and security controls
