

Advance your API strategy with expert guidance

You have made a critical investment in advancing your technology capabilities to be competitive and relevant in today's digital world. Are you utilizing Axway AMPLIFY™ API Management to its full potential?

Has your organization designed and embraced a strategy that truly exploits the API economy?

Axway API Adoption and Engagement Services is a three-month engagement to help ensure your company is maximizing your API investment. Our seasoned experts will work with you to design, implement and advance your strategy to improve API adoption and engagement.

How can you get faster and better at less cost?

An Axway Solutions Architect will provide technical and best-practice guidance for up to 10 hours per week to help ensure your API strategy is a success.

Axway's ongoing expert guidance helps teams:

- Speed time to market with optimal architecture and design strategies
- Reduce build and maintenance costs through more efficient design and higher reusability practices
- Deepen expertise to ensure you are getting the most out of your Axway API Management solution

To take full advantage of this consulting engagement, your team should be trained on the Axway AMPLIFY API Management solution. You should also have completed the initial implementation of the solution.

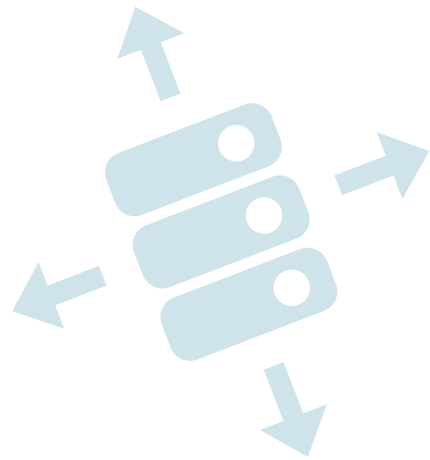

Continue the journey with confidence.

A Solutions Architect will be your sounding board, sharing best practices and market and industry insight to help you get out front and stay ahead of the competition.

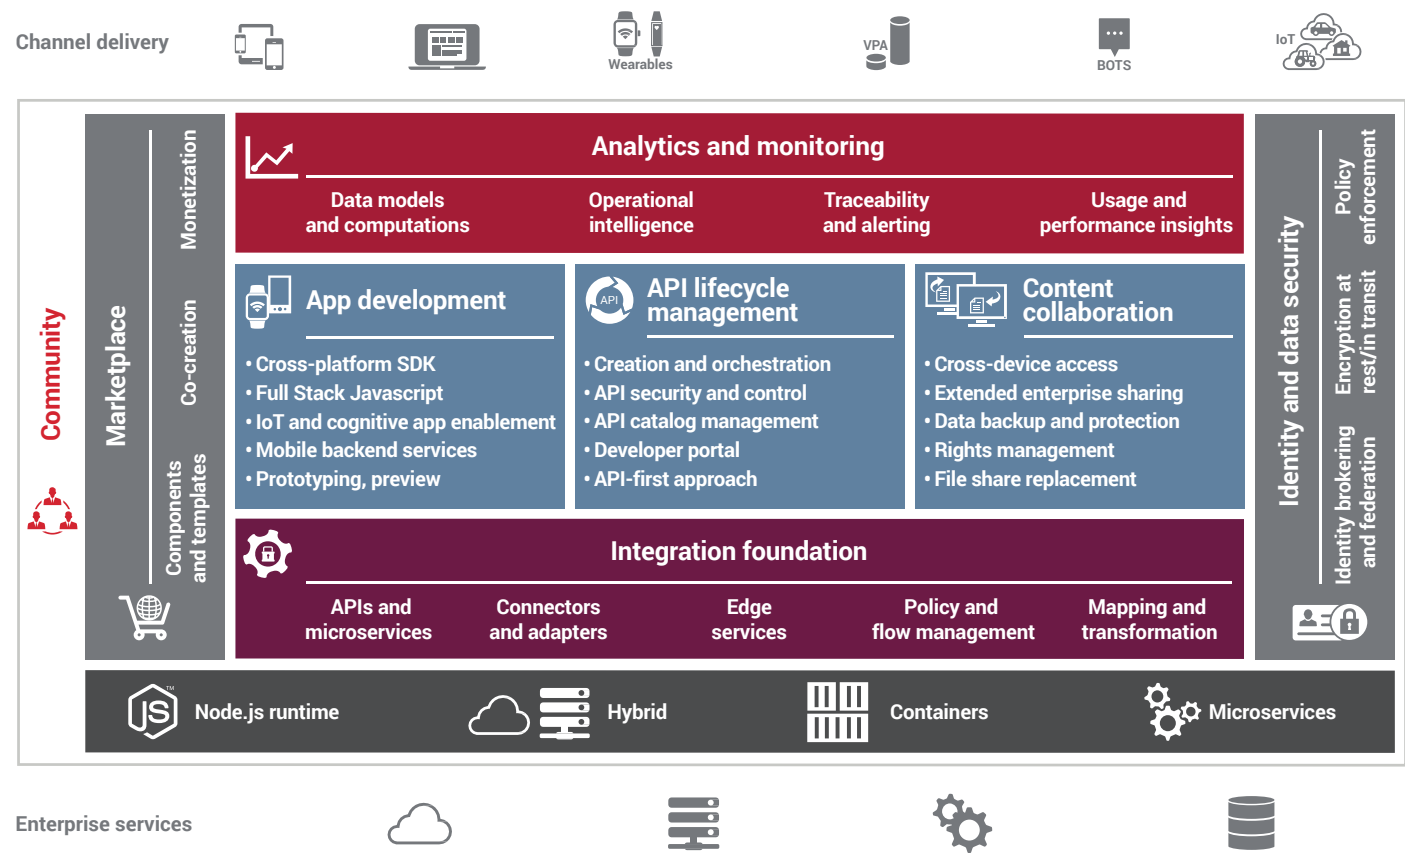

We will work closely with your project teams in such activities as:

- Design walkthroughs
- Code reviews
- Security hardening
- Continuous delivery and deployment
- API lifecycle management
- Developer engagement
- Scalability and performance
