

A modern, mobile collaboration solution for product professionals

Collaboration drives innovation

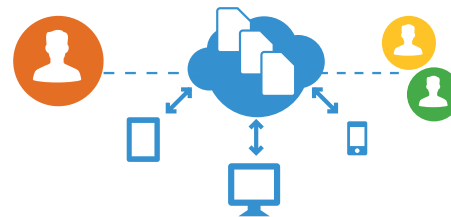

Syncplicity is an enterprise-grade file-sharing and collaboration solution that helps product professionals collaborate with team members, other departments, suppliers, partners, and customers while keeping sensitive information, safe and secure.

You can grant full or read-only access on a file-by-file basis, and create shared folders so key contributors can focus, access files when they need them and innovate without emailing large files and creating redundancy.

The content you need, when you need it

Manage and protect critical product documents and keep distributed teams collaborating:

- Instant, automatic syncing ensures everyone works with current information
- IT-approved, enterprise-grade security keeps your intellectual property safe
- Our breakthrough iPhone UX takes mobile productivity to a whole new level
- No file-size limits, and no FTP or email required

Anytime, anywhere access to everything

- Daily, weekly, and quarterly product reports
- Licensing information
- Patent, copyright, and trademark information
- Product designs
- Product launch documents
- Product updates
- Project plans
- Proposals
- Research data
- Standard operating procedures
